EXCITING NEWS

COMING SOON STYROFOAM RECYCLING

RRDD1 will be the first transfer station in the State of Connecticut to start a **STYROFOAM RECYCLING PROGRAM**. RRDD1 and FOAMCYCLE will be partnering in this exciting adventure.

STAY TUNED FOR MORE DETAILS!

FOOD SCRAPS RECYCLING

Since January 2024 RRDD1 has partnered with Blue Earth Compost to begin a Food Scraps pilot program paid for by the the member Towns through their nipper bottle revenue from the State of Connecticut.

Every ton of food composted means less money paid for disposing of Trash by sending it to an out of state landfill.

Seperating your food scraps for compost is an easy way to improve our air, water and soil.

I can compost

- Meat & Bones
- Fish & Shells
- Dairy & eggs
- Fruits & veggies
- Coffee & tea

Pasta, bread & Cereal
Incidental oils & fats

I can't compost

- Plastic bags
- Metal, glass & Styrofoam
- Corks, gum & candles
- Rubber bands & cleaning products

Compost	\$30.00 per yard
Supply is limited. RRDD1 reserves the right to limit sales.	

TRASH CRISIS IN CONNECTICUT

The current trash crisis in Connecticut has unfortunately caused us to raise our sticker fees and some of our scale prices. RRDD1 takes the majority of our waste and recycling to the MIRA run transfer station in Torrington. In Torrington the waste is loaded with the other MIRA towns and transported by truck to a landfill in Pennsylvania. With the Governor signing House bill 6664 in June of 2023 effectively ending the Materials Innovation and Recycling Authority (MIRA), This leaves the remaining MIRA member towns with uncertainty with what it will cost to dispose of our waste and recycling and where it will go.

Beginning on July 1, 2024 it will cost RRDD1 \$131.00 per ton to dispose of our waste. This is an increase of \$15.00 per ton over the current year. With our MIRA contract we are not charged additional fees to dispose of our recycling. If we are forced to go with a private hauler in the future, we will be charged a fee for recycling. The long term effects of the state closing the MIRA trash to energy plant in Hartford will continue to be felt until an economical, sustainable and environmentally friendly solution is found.

At RRDD1 we continue to try and find ways to help reduce the amount of waste we send to the landfill. Programs such as our food scraps composting program and our upcoming STYROFOAM recycling program are just the start.

SCALE FEES

Scale open 7:00 am – 3:00 pm	Must scale out
